

TEXAS LEHIGH CEMENT COMPANY

Buda, TX

JOB DESCRIPTION

Job Title: Quarry Operator

Department: Production

Job Type: Hourly

Compensation: \$ k/yr. + eligible to participate in the Hourly Bonus Program

Reports to: Quarry Supervisor

General Description:

Equipment Operator I & II – Responsible for one or two parts of the system which involves drilling limestone, blasting it and loading the stone with a front-end loader into a haul unit for delivery to the crusher. The limestone is then delivered to the main plant's raw material storage building by way of conveyor belt system. Employee is part of a team that drills, blasts, loads, and delivers limestone to the primary crusher. Employee is required to have working knowledge of all positions, however, they only function primarily in one or two positions.

Required skills and qualifications:

- High school diploma required;
- Experience on a rotating 12-hour shift schedule, working weekends, and holidays.
- Communicate clearly over radio in English to direct workforce and respond in emergencies from Control Room
- Excellent organization, communication (written and oral).
- Superior time management skills, multitasking skills, and the ability to prioritize tasks with minimal supervision.
- Resourcefulness and flexibility.
- High level of sound and independent judgement, reasoning, and discretion.
- Safety and Detail Oriented; Knowledge of MSHA regulations.
- Confident, personable, professional, and diplomatic
- Responsive and positive work attitude is essential.
- Physical aptitude to climb ladder, shovel, jack hammering, carrying heavy weights.
- Sit for extended periods of time.

Major Duties/Responsibilities:

- Safety and job assignment completion
- Drive 35 & 50-ton haul trucks to deliver limestone from blasting site to the crusher.
- Operate rubber-tired 7+ yard loader equipped with front mounted hydraulically powered bucket.
- Maintains roadways, keeping all rock spillage and debris off the haul roads.

- Observe crusher amps and belts conveyors to insure continuous flow of material.
- Regulate wobbler feeder for max load on the conveyor and crusher.
- Collect data and prepare a daily crushing report.
- Perform inspections throughout the crushing system and belt lines leading into raw storage.
- Cleans the tripper, crusher floor, catwalks along the conveyor belts, lube pumps, and grease rollers.
- Service and refuel equipment, check the oil, water, and filters on a daily basis.
- Monitor work areas and gages.

Other Preferred Skills:

- **Dexterity and Accuracy:** Dexterous movements, i.e., motor coordinator, finger dexterity, manual dexterity and eye-hand-foot coordination required; with precision in accuracy paramount in maintaining material flow process.
- **Other Aptitudes:** Numerical, spatial and form perception

This list is not intended to be a complete list of duties and responsibilities. It is to be used as a guide to understand the expectations of the Quarry Operator position. Duties, responsibilities and tasks will be directed by the Quarry Supervisor as necessary to ensure the safety of the workforce, reliability of the equipment and to control the associated costs.
